The new Motion.

Sleek, easily controlled, effortless.

With a model to suit almost every hearing requirement, the new Motion™ fits comfortably and discreetly behind your ear. Easy to adjust and control, they are packed with functionality that lets you hear with ease all day long. Whatever the situation, you can simply relax and enjoy it.

The Motion family:

Easy to use, comfortably discreet.

Robust enough to withstand the rigors of daily life, Motion is IP67-rated to resist moisture, dust and dirt. A choice of earhook or ThinTube ensures maximum hearing and wearing comfort.

Motion's range of colors are designed to match a variety of hair and skin tones.

* Additional colors for some models.

Enjoy life's true sound.

Whether it's an open-plan office, a crowded store or a busy restaurant, wherever there's a high level of ambient noise, holding a conversation requires concentration and effort. Straining to hear voices in these situations is tiring - a fact that even people with normal hearing are familiar with.

The new Motion helps relieve this. Its advanced SpeechMaster function continuously monitors what you are listening to and singles out the dominant speaker to reduce unwanted voices and background noise. You hear what you want but not the rest. As a result, hearing becomes effortless and less tiring than normal hearing. All day long. In every situation.

Celebrations with the family. And Motion.

Breakfast excitement.

Your niece and nephew are visiting. Around the breakfast table, they're chatting excitedly about the day's plans. Voices are bouncing around the table and the sounds of forks and spoons are clinking away distractingly in the background. Motion brings outstanding performance to the table to make sure you don't miss a thing. Its advanced automatic **SpeechMaster** function singles out the speech while simultaneously engaging **SoundSmoothing™** to reduce the clattering of cutlery.

Thanks to Motion, you easily hear what matters. In fact, it makes hearing so effortless that all you have to think about is whether to have yoghurt or muesli. Or both.

Scoops of pleasure.

Outside the ice cream parlor, everyone is enjoying the breeze and watching the traffic go by. With the sound of chatter all around, Motion rises to the challenge. Its automatic **SpeechMaster** function singles out the speech while simultaneously engaging **noise reduction** and **eWindScreen™ binaural** to reduce wind noise and suppress the sound of the cars so that you clearly hear every word.

A joyful celebration.

At a lively gala party, your discussion is one in a crowd of conversations but Motion manages it superbly. As the party moves into a large ballroom, the chatter bounces around left, right and center. As it echoes off the walls, Motion's **EchoShield** program softens the reflected sound so you can concentrate on enjoying the party.

Tinnitus? Relief is at hand.

With its static and ocean wave **tinnitus therapy signals**, Motion provides welcome relief for tinnitus sufferers. Ask your Hearing Care Professional which solution is best for you.

Music fidelity you'll really appreciate.

Motion's **HD Music** program delivers outstanding sound quality specially created to let you fully enjoy music. Whether you're enjoying your favorite music at a concert, listening at home on your own HiFi system, or even on stage performing music yourself, HD Music offers an optimized and superb listening experience.

Extra touches, more convenience.

A call for celebration.

With Motion, phone calls are a snap. As soon as the phone is held to your ear, its **TwinPhone** feature transmits the caller's voice to both ears for better understanding. Or connect Motion to your Bluetooth-enabled phone via **easyTek™** for hands-free calling and music streaming.

* Compatible with Android and iOS.
The app is free of charge.

easyTek

easyTek
App

Complete discretion in the palm of your hands.

Effortless hearing made convenient and discreet. The **touchControl App™*** puts complete control of Motion at your fingertips. Change hearing programs and adjust the volume, bass and treble to suit your needs. All you need is a smartphone.

touchControl
App

Smart handling all round.

For complete convenience and ease of handling, the **easyPocket™** remote control, **VoiceLink™** companion microphone for easyTek, and **eCharger** charging station make life with Motion easier than ever before.

easyPocket VoiceLink eCharger

The ideal answer to noisy environments.

The optional integrated audio shoe on Motion SA provides direct audio input streamed from FM systems. This is especially helpful in noisy environments such as classrooms.
