Suburban
hearing aid center

Call us today at (215) 310-5091 to
RSVP to our Free Open House Hearing
Event! We look forward to talking with
you when you stop in for your appointment.

- Steven Grant

Dealing with hearing loss can be difficult, not to mention the challenge of understanding and selecting a hearing aid. There are multiple features to suit different hearing losses, individual needs and lifestyles. Where do you begin?

Suburban Hearing Aid Center has the answer!

With our staff, you can be sure your hearing loss is properly diagnosed and managed. We are independent and will fit you with the best technology for your hearing loss. We specialize in helping people hear more clearly, not just louder. The biggest problem for most people is clarity. "I can hear, I just can't make out the words!"

With Phonak's breakthrough technology, we can help you hear more of what you want to hear, less of what you don't want to hear. This means you will hear more clearly everywhere you go, whether it's church, work, restaurants or home!

Sincerely,

Steven Grant
